THE SLII EXPERIENCE™

Prepare to lead differently

To be a leader others want to follow, managers need to set clear and attainable goals, provide the matching leadership style, and give appropriate feedback. The goal of a Situational Leader is to help others develop competence, motivation, and confidence. Situational Leadership® II (SLII®) boosts the effectiveness, impact, and dedication of leaders and teaches them to behave in alignment with their good intentions and with what their people need.

Recognized as both a business language and a framework for employee development that transcends cultural, linguistic, and geographical boundaries, the foundation of SLII lies in teaching leaders to diagnose the needs of an individual and then use the appropriate leadership style to respond to the needs of the person.

Leveraging all the theory and design that has made SLII the world’s most taught leadership training model for more than 35 years, our new learning design, The SLII Experience™, uses game-changing techniques that immerse learners in SLII quickly, deeply, and effectively.
